

MARSHAK

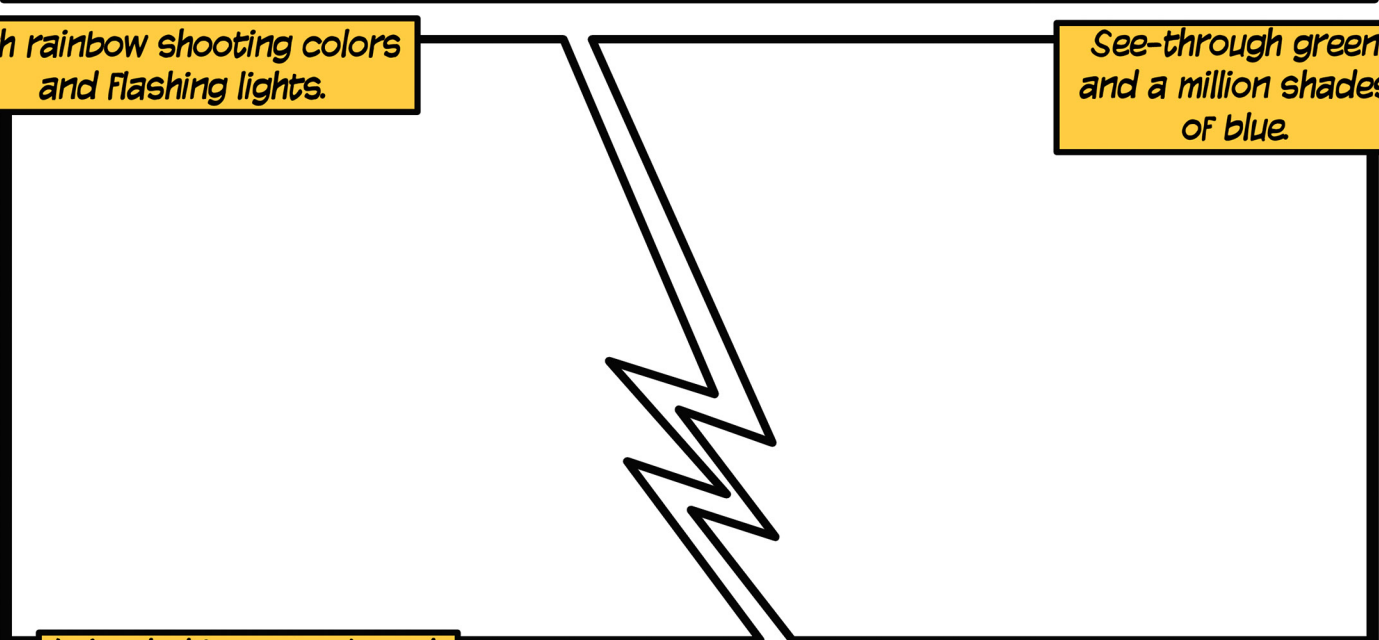

Create Your Own Comic Book
By Kevin Levy

Along came a spaceship from out of the sky

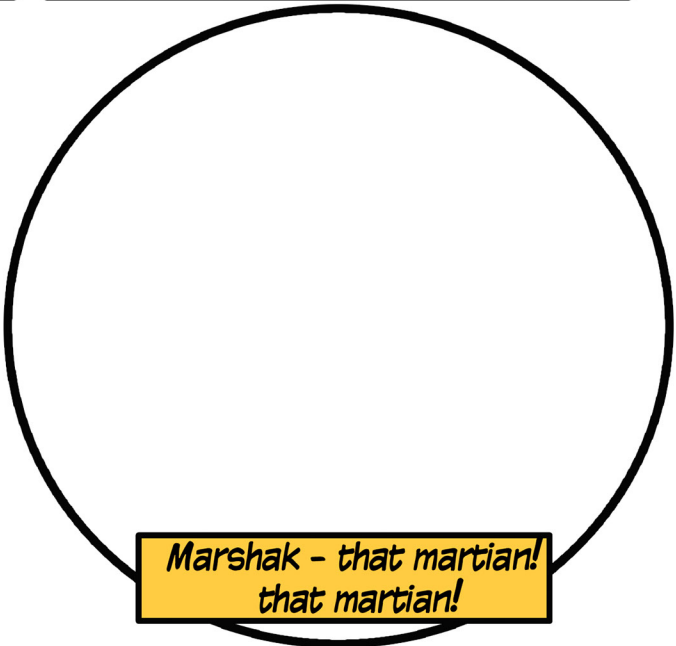

*with rainbow shooting colors
and flashing lights.*

*See-through green
and a million shades
of blue.*

*It landed in my backyard
and out came who?*

*Marshak - that martian!
that martian!*

*His ship was buzzing and beeping
and blinking.*

Marshak's first words were

*I love you, do you
love me?*

*it weighed no more than a million tons my
grass started sinking.*

*My dog looks like a lemon
and my friend is a bee*

*I walked inside his spaceship 'cause
it just looked so fake.*

*There's a plastic tree
and a paddle boat in a big purple lake.*

A life-sized map of the universe was open wide

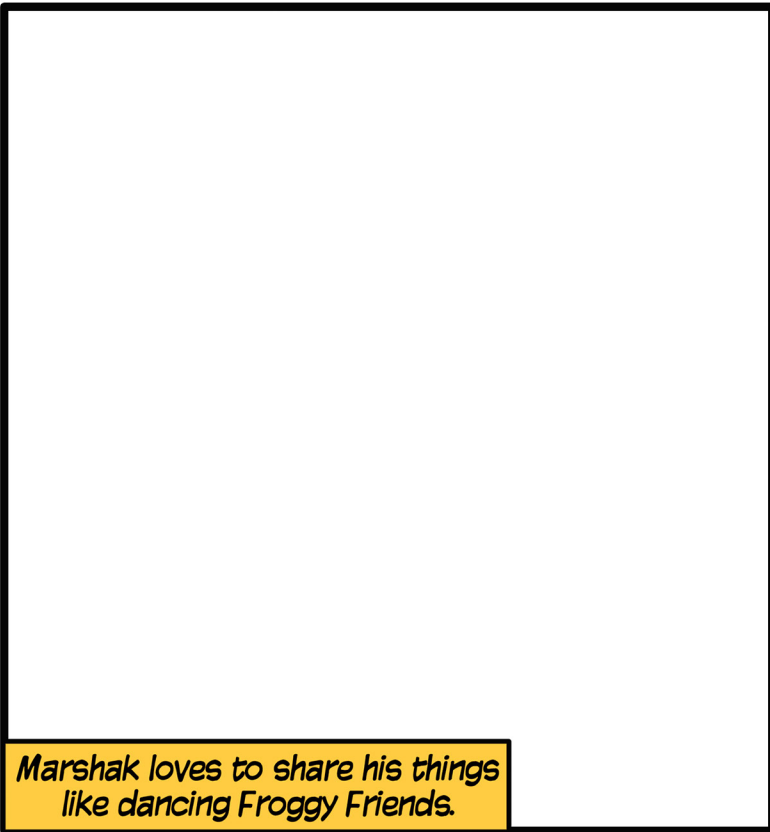

Hey over there, there's directions to Earth
and it's carved in ice

My real name is blah-blee-blue-
blah and i have 1 eye

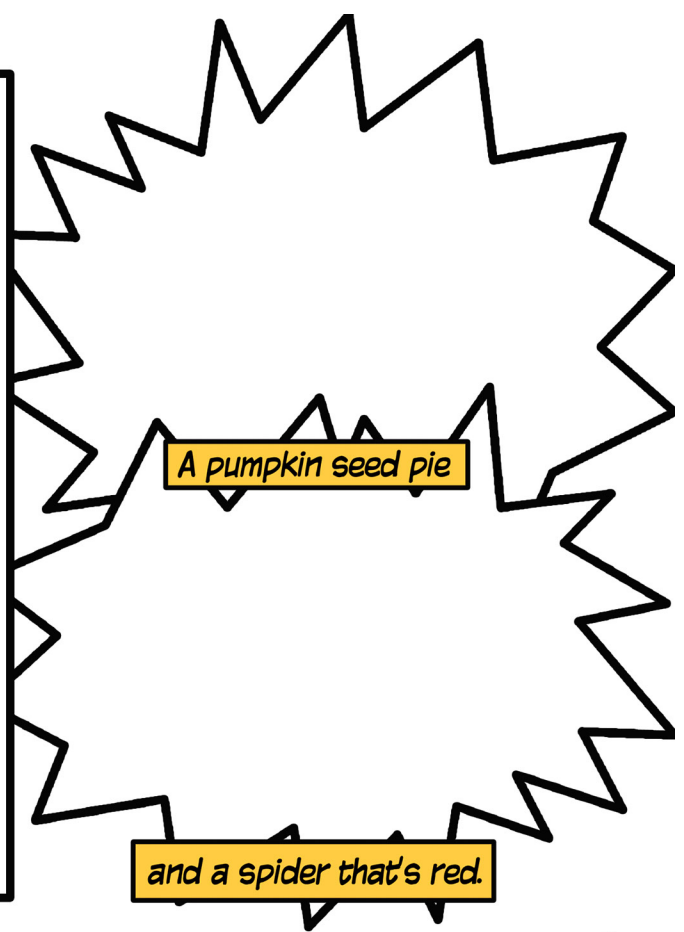

At 2 years old
I learned to fly

I'm a 3 foot high and
4 foot wide alien

I passed Galileo and the
Voyager twins

*Marshak loves to share his things
like dancing Froggy Friends.*

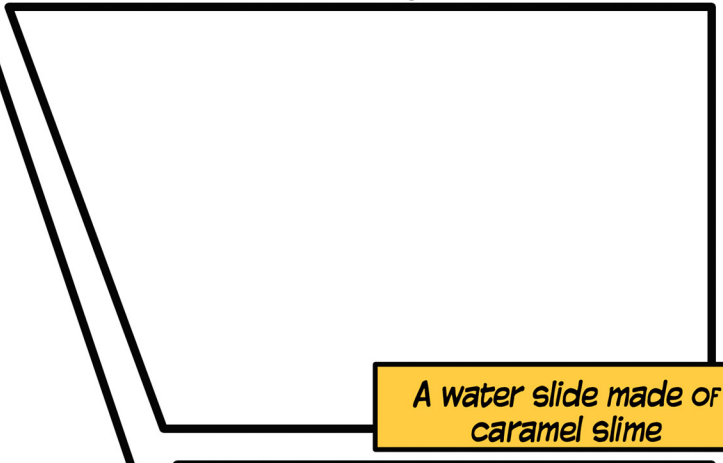

A pumpkin seed pie

and a spider that's red.

*Scratch and sniff computer
screens that smell so sweet,*

*A water slide made of
caramel slime*

and a singing pink beet.

*An asteroid made of rock
and ice almost hit my ship*

*I made a quick left
but i bit my lip*

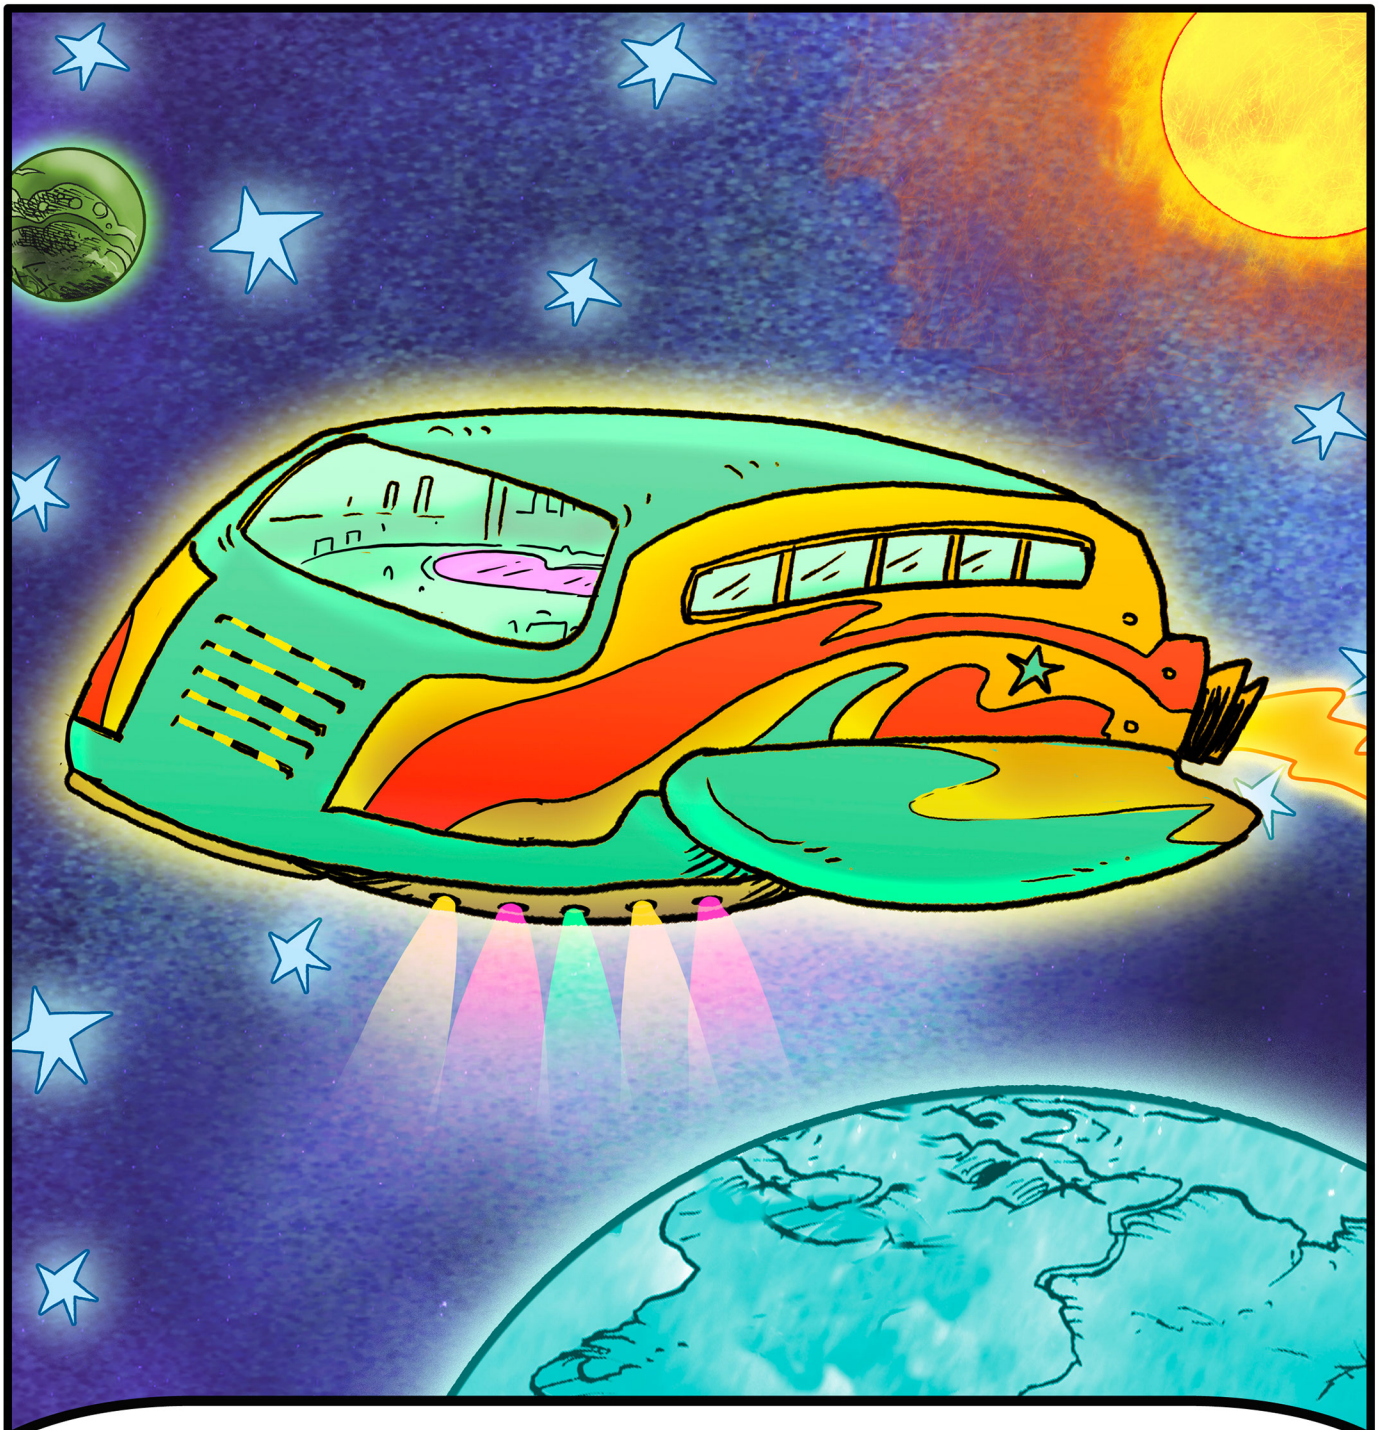

*My planet is electrical and
made of ice cream,*

*with melting chocolate mountains
and vanilla streams*

M-A-R-S-H-A-K All the way from outer space.

It's so cold in outer space.

The End
